

Four Stages of Web Design

How they compare & contrast to the design process

The design process

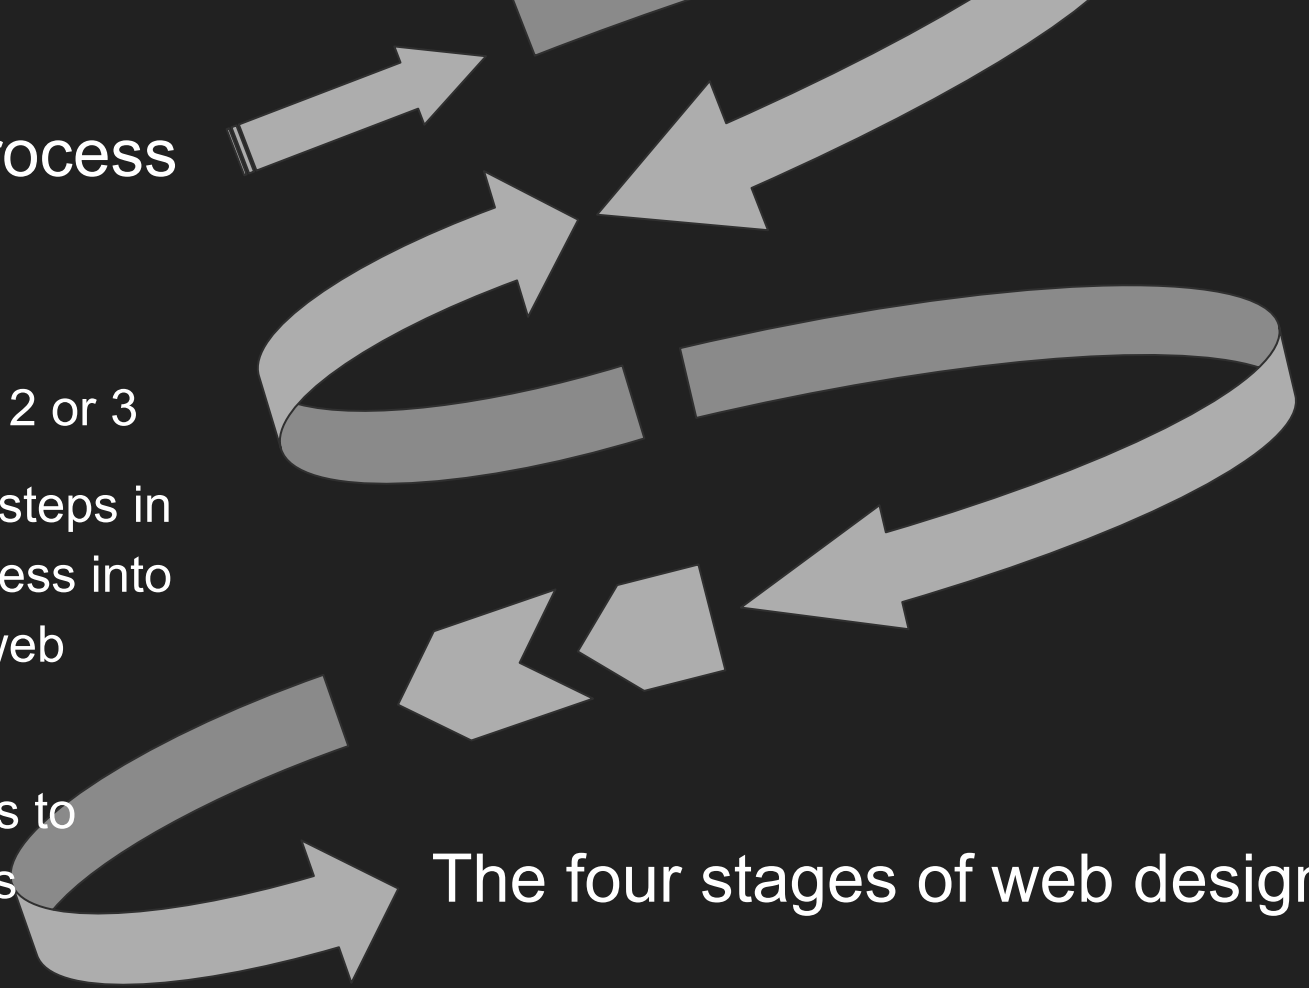

The design process

Task:

- Form groups of 2 or 3
- Synthesize the steps in the design process into four stages of web design
- Use sticky notes to show your ideas

The four stages of web design

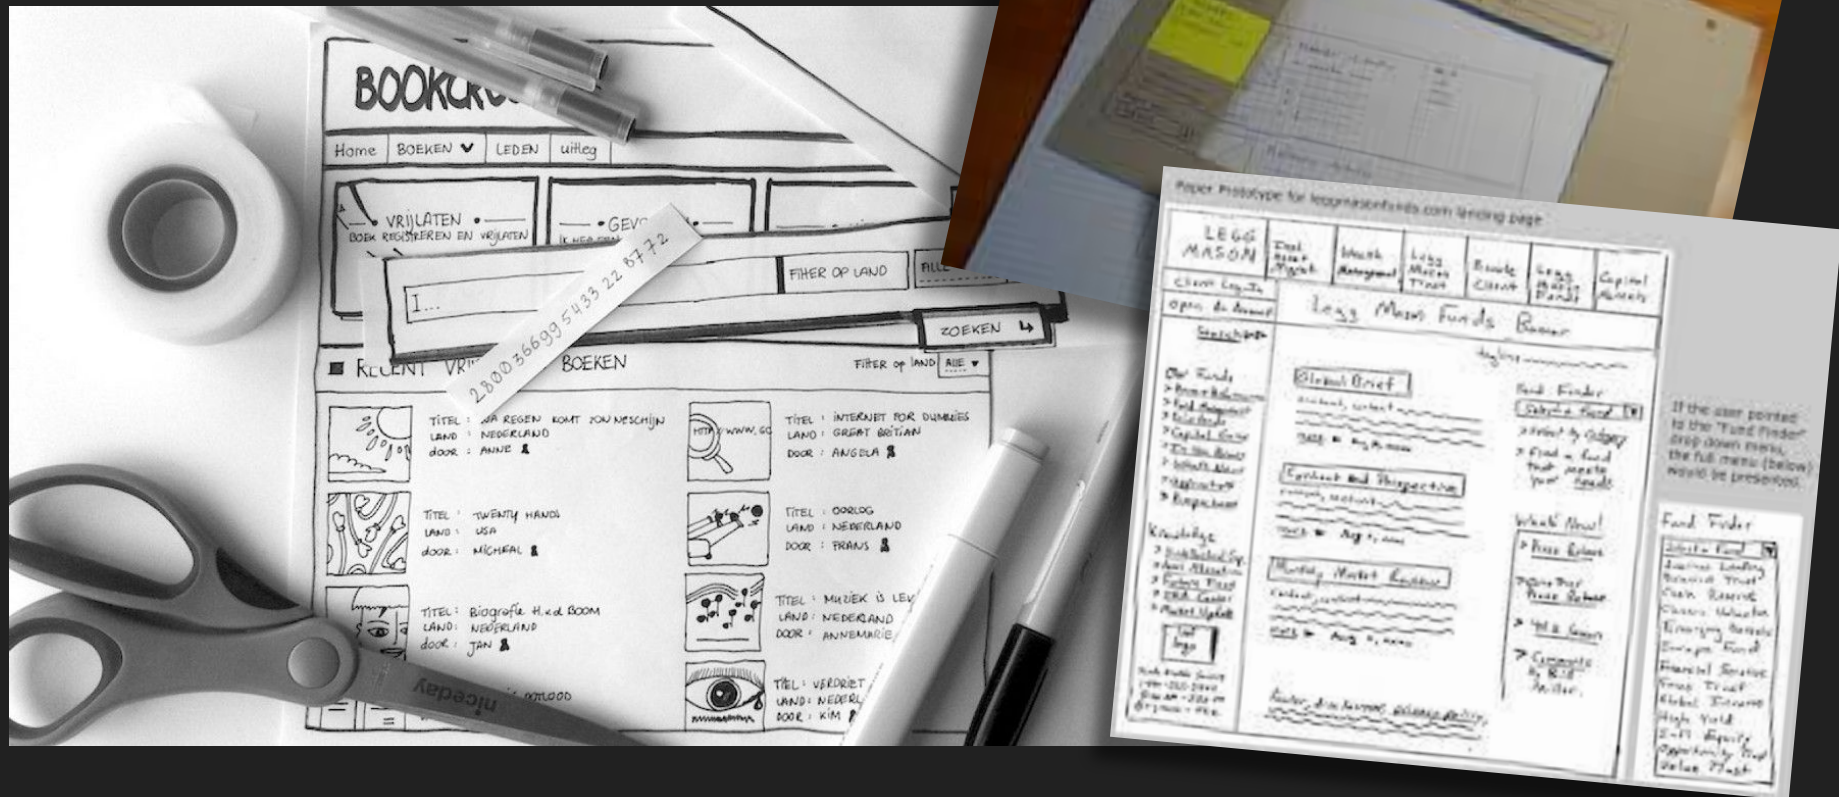

The four stages of web design:

1. Plan your content
2. Wireframe your design
3. Create your pages/build your site
4. Publish your site
