

Introduction to Bootstrap

“Grids”

Warm Up: What are grids and why do we need them?

Think time...

```
1 ▼ <div class="container text-center">
2 ▼   <div class="row">
3 ▼     <div class="col">
4       Column
5     </div>
6
7 ▼     <div class="col">
8       Column
9     </div>
10
11 ▼    <div class="col">
12      Column
13    </div>
14
15  </div>
16 </div>
```

How to use Bootstrap to add ➤ “grids”

- Go to <https://getbootstrap.com/> > Docs > Use the links on the left
- Click on **Layout** > **Grid**

Activity:

“grid” - label your columns

“grid” - try adding more rows

“grid” - try these out

- **add an image to a column**
- **add background color to each**

Stretch: include all three activities, personalize it!

The Griddy

This is my first
column on the left

This is the second row, left

This is my middle column

This is the second row, middle

This is the third column on the
right

This is the second
row, right
